SCHEDULE I	9

DEFINITIONS

"Business Day", a day (excluding Saturday and Sunday) on which the banks are open for business in Ireland and the United Kingdom (and/or such other day as the Manager may from time to time determine and notify in advance to Unitholders).

"Central Bank", means the Central Bank of Ireland and its successors thereof.

"Dealing Day", each Business Day (or such other day or days as the Manager may from time to time determine and notify in advance to Unitholders provided there is at least one Dealing Day per fortnight).

"Dealing Deadline", before 12.00pm (Irish time) on the relevant Dealing Day.

"Valuation Point", close of business in the relevant market on each Dealing Day or such other days as the Directors, with the consent of the Custodian, may determine.

With the exception of the defined terms set out above, and unless the context requires otherwise, defined terms in this Supplement shall have the meaning attributed to them in the Prospectus.

INTRODUCTION

As at the date of this Supplement, the AXA Selection Flexible has three classes of Units namely, the Institutional Class I (EUR) Units, the Retail Class R (EUR) Units and the Zero Class Z (EUR) Units. Additional classes may be added to the AXA Selection Flexible in accordance with the requirements of the Central Bank.

The base currency of the AXA Selection Flexible is Euro.

The AXA Selection Flexible is subject to the overall management of the Manager who in turn appoints an Investment Manager. The Investment Manager will be responsible for the investment of assets of the AXA Selection Flexible based on its investment style. The Manager is not limited as to the investment style of an Investment Manager that it may select. The Manager may, itself, also manage all or a specified allocation of the AXA Selection Flexible.

Profile of a Typical Investor

The AXA Selection Flexible is suitable for investors seeking medium-term capital growth with a medium to high level of volatility.

AXA SELECTION FLEXIBLE

Investment Objective

The investment objective of the AXA Selection Flexible is to seek medium-term capital growth.

Investment Policy

The AXA Selection Flexible is actively managed. The AXA Selection Flexible invests in interest-rate, convertible and equity securities. The AXA Selection Flexible may invest up to 10% of its assets in UCITS and acceptable alternative investment funds. The AXA Selection Flexible may also invest in FDI as described below.

In order to achieve its investment objective, the AXA Selection Flexible invests in interest-rate or convertible bond products (i.e. fixed income securities which can, at the option of the purchaser be converted into equity or equity-related securities), equities and UCITS in the light of market trends. The Manager will allocate between asset classes by applying a value-based opportunistic approach to seek an optimal risk / reward profile.

The AXA Selection Flexible may therefore invest in and/or be exposed to:

- from 0 - 100% of AXA Selection Flexible's Net Asset Value in interest-rate or convertible bond products which may be government or corporate bonds of fixed or floating rate, across all maturities which are rated or unrated and which are listed or traded on Regulated Markets. High-yield investments will be limited to 20% of AXA Selection Flexible's Net Asset Value;
- from 0 - 100% of AXA Selection Flexible's Net Asset Value in mid or large-cap equities;
- from 0 – 20% of AXA Selection Flexible's Net Asset Value in small cap equity securities;
- from 0 - 10% of AXA Selection Flexible's Net Asset Value in UCITS which help AXA Selection Flexible to achieve its own investment objective and strategies;
- short term liquid assets such as money market instruments, as defined in the Central Bank Requirements and which include UCITS and acceptable alternative investment funds money market collective investment schemes;
- the AXA Selection Flexible may invest up to 20% of its Net Asset Value in emerging economies.

Save for permitted Investments in unlisted securities, Investments of AXA Selection Flexible will generally be listed or traded on Regulated Markets. The AXA Selection Flexible may also use exchange-traded or over-the counter FDI traded on Regulated Markets; interest-rate and index swaps (to gain exposure to the asset classes listed above); forward currency contracts, forward foreign currency swaps (to gain exposure to the global interest rate and credit markets, to obtain a fixed return or spread, to increase capital gains or to hedge or alter exposure to a security in the asset classes listed above which is not readily accessible); and equity, interest-rate, currency and index futures and options (to gain efficient exposure to the investments outlined above, to reduce risk, to increase returns and for hedging purposes) in accordance with provisions of the Prospectus and the limitations set down in Appendix II to the Prospectus. With this in mind, it hedges its portfolio and/or exposure to economic sectors, geographical areas, currencies, interest rates, equities, securities and indexes, where appropriate. The Manager will have in place a risk management process (“RMP”) cleared by the Central Bank which allows it to accurately measure, monitor and manage the associated risks. Any FDI not included in the RMP will not be utilised until such time as a revised submission has been provided to the Central Bank. Global exposure of the AXA Selection Flexible will be measured and monitored using the commitment approach. Leverage resulting from the use of FDIs will not exceed 100% of the Net Asset Value and will be done in accordance with the Regulations. The AXA Selection Flexible may also borrow up to 10% of its Net Asset Value temporarily.

The AXA Selection Flexible may also use other investment techniques including securities lending and investment repurchase and reverse repurchase agreements for efficient portfolio management purposes in accordance with the provisions of the Central Bank Requirements and Appendix II of the Prospectus.

In relation to total return swaps, the Manager expects that such transactions will apply to 0% of the Net Asset Value of the AXA Selection Flexible, however the AXA Selection Flexible may enter into such transactions up to 100% of its Net Asset Value.

The AXA Selection Flexible may enter into securities lending, repurchase and/or reverse repurchase agreements solely for the purposes of efficient portfolio management in accordance with the provisions of the Central Bank Requirements and Appendix II to the Prospectus. The Manager expects that lending of securities and repurchase transactions will apply to 0% of the Net Asset Value of the AXA Selection Flexible, however, the AXA Selection Flexible may enter into such transactions up to 100% of its Net Asset Value. The Manager expects that borrowing of securities and reverse repurchase transactions will apply to 0% of the Net Asset Value of the AXA Selection Flexible however the AXA Selection Flexible may enter into such transactions up to 100% of its Net Asset Value. Details on the past utilization of these transactions are contained in the AXA Selection Flexible annual report.

SFDR

AXA Selection Flexible promotes environmental and social characteristics and therefore falls within the scope of Article 8 of the SFDR but does not have as its objective a sustainable investment as such term is understood in accordance with the SFDR.

Further information on the environmental and/or social characteristics, and other SFDR related information of AXA Selection Flexible is available in the Sustainability Disclosure Annex of this Supplement

RISK FACTORS

Unitholders and potential investors are specifically referred to the section headed “Risk Factors” in the Prospectus.

INVESTMENT AND BORROWING RESTRICTIONS

The AXA Selection Flexible is subject to the investment and borrowing restrictions set out in the Regulations and in Appendix III to the Prospectus. The AXA Selection Flexible will not invest more than 10% of its Net Asset Value in collective investment schemes.

Where the AXA Selection Flexible receives collateral as a result of trading in OTC FDI, the use of efficient portfolio management techniques or otherwise, the requirements of Schedule I will apply.

DIVIDEND POLICY

It is not intended to declare any dividend on Units in the AXA Selection Flexible (although the Manager retains discretion to implement a policy of paying dividends). Consequently, any income and other profits will be accumulated and reinvested on behalf of Unitholders. Full details of any permanent change to the AXA Selection Flexible's dividend policy will be provided in an updated Supplement and all Unitholders will be notified in advance.

SUBSCRIPTIONS

Initial Offer

The continuing Initial Offer Period for the Zero Class Z (EUR) Units shall be the period ending at 5.30 pm (Irish time) on 9 March 2023.

The initial offer price for the Zero Class Z (EUR) Units shall be €100.

Applications for Units during the Initial Offer Period must be received during the Initial Offer Period. Payment in respect of subscriptions for applications received during the Initial Offer Period must be received by the Administrator by 5.00pm (Irish time) on the second Business Day following the relevant Dealing Day.

Subsequent Subscriptions

Units may be subscribed for in the manner described in the Prospectus under the heading "Subscriptions".

Applications for subscriptions must be received by the Administrator by the Dealing Deadline or such other time as the Manager may determine (provided the application is received by the Administrator before the relevant Valuation Point, which for this purpose shall be the close of business in the market that closes first on each Dealing Day). Any applications received after the Dealing Deadline will normally be held over until the next Dealing Day but may in exceptional circumstances be accepted for dealing after the Dealing Deadline, at the discretion of the Manager (provided the application is received by the Administrator before the relevant Valuation Point).

Payment in respect of applications for subscriptions must be received by the Administrator by 5.00pm (Irish time) on the second Business Day following the relevant Dealing Day.

The latest price for Units will be available during normal business hours every Business Day at the office of the Administrator and will be published daily on the Manager's website www.architas.com.

Minimum Subscription Amount / Minimum Holding

The minimum subscription amount during and after the Initial Offer Period and minimum holding amount in respect of each Unit class is set out below.

Unit Class	Minimum Subscription during Initial Offer Period / Minimum Holding	Minimum Subscription
Institutional Class I (EUR) Units	€1,000,000	€1,000,000
Retail Class R (EUR) Units	€1,000	€1,000
Zero Class Z (EUR) Units	€1,000,000	€1,000,000

The Manager may, at its discretion, grant Unitholders and potential investors an exemption from the above minimum subscription amounts.

REDEMPTIONS

Units may be redeemed as described in the Prospectus under the heading "Redemptions". Applications for redemptions must be received by the Administrator by the Dealing Deadline or such other time as the Manager may determine (provided the application is received by the Administrator before the relevant Valuation Point, which for this purpose shall be the close of business in the market that closes first on each Dealing Day). Any applications received after the Dealing Deadline will normally be held over until the next Dealing Day but may in exceptional circumstances be accepted for dealing after the Dealing Deadline, at the discretion of the Manager (provided the application is received by the Administrator before the relevant Valuation Point).

Redemption proceeds will be paid by 5.00pm (Irish time) on the second Business Day following the relevant Dealing Day, provided that all required documentation has been furnished to and received by the Administrator.

The latest price for Units will be available during normal business hours every Business Day at the office of the Administrator and will be published daily on the Manager's website www.architas.com.

SWITCHING

Unitholders of the AXA Selection Flexible may switch, free of charge, to any other Classes of the AXA Selection Flexible or to other Classes of another Fund as the Directors of the Manager may permit.

FEES AND EXPENSES

General

All fees and expenses relating to the establishment of AXA Selection Flexible including the fees of the advisers, such as legal advisers, to the Trust ("establishment expenses") all in aggregate not exceeding €15,000 will be borne by AXA Selection Flexible and will be amortised over the first five financial years of the lifetime of AXA Selection Flexible or such other period as the Directors may determine and notify to Unitholders. AXA Selection Flexible shall bear its attributable proportion of the organisational and operating expenses of the Trust (including any establishment expenses). These are set out in detail under the heading "Fees and Expenses" in the Prospectus.

Management fees

The Manager is entitled to charge up to the amounts set forth below in respect of its own fees, the fees of the Investment Manager (who will, from the fee received by it from the Manager, discharge the fees and expenses of any sub-investment manager), Administrator (including registrar and transfer agency fees), the Trustee (including any sub-custody fees) and the fees of any duly appointed distributor to the AXA Selection Flexible. The fees will be accrued daily based on the daily Net Asset Value of the AXA Selection Flexible attributable to the relevant Unit class and will be paid monthly in arrears.

Unit Class	NAV
Institutional Class I (EUR) Units	Up to 2.50%
Retail Class R (EUR) Units	Up to 3.00%
Zero Class Z (EUR) Units	Up to 2.00%

The Manager shall also pay from these amounts all reasonable, properly vouched out-of-pocket expenses incurred by it, the Investment Manager, the Administrator and the Trustee in the performance of their duties and responsibilities under the Trust Deed and material contracts.

The Manager shall discharge any additional fees and expenses out of the assets of the AXA Selection Flexible, such as Duties and Charges, audit fees and legal fees provided for in the Prospectus under the heading "Fees and Expenses".

GENERAL

The Funds in existence as at the date of this Supplement are set out in Supplement No.1.

SCHEDULE I

Collateral Policy

Permitted types of collateral

Where the AXA Selection Flexible receives collateral as a result of trading in FDI on an OTC basis or as result of entry into repurchase and reverse repurchase agreements or securities lending the AXA Selection Flexible intends, subject to the criteria set out in the Central Bank Requirements and Appendix II to the Prospectus, to accept collateral in the following form:

- (a) cash;
- (b) government or other public securities;
- (c) bonds/commercial paper issued by relevant institutions or by non-bank issuers where the issue or the issuer are of high quality;
- (d) certificates of deposit issued by relevant institutions;
- (e) letters of credit with a residual maturity of three months or less, which are unconditional and irrevocable and which are issued by relevant institutions; and
- (f) equity securities traded on a stock exchange in the EEA, UK, Switzerland, Canada, Japan, the United States, Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

Haircut Policy

In respect of the permitted types of collateral above:

- (a) none;
- (b) market standard haircut in respect to the residual maturity of the security;
- (c) market standard haircut in respect to the residual maturity of the security;
- (d) market standard haircut in respect to the residual maturity of the security;
- (e) market standard haircut in respect to the residual maturity of the security; and
- (f) market standard haircut in respect to the residual maturity of the security.

Level of collateral required

Collateral obtained must be marked to market daily and must equal or exceed, in value, at all times the value of the amount invested or securities loaned.

SUSTAINABILITY DISCLOSURE ANNEX

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: AXA Selection Flexible (the “Sub-Fund”)
Legal entity identifier: 549300YJGZFW72OKDU58

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes
 No

<input type="checkbox"/> It will make a minimum of sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It will make a minimum of sustainable investments with a social objective: ___%	<input type="checkbox"/> It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promotes E/S characteristics, but will not make any sustainable investments
---	---

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund pursues an investment strategy that factors in certain environmental and social characteristics in the manner contemplated by Article 8 of the SFDR but does not have as its objective a sustainable investment as such term is understood in accordance with the SFDR. No index has been designated for the Sub-Fund as a reference benchmark for the purposes of the SFDR.

The Sub-Fund seeks to promote environmental characteristics (carbon intensity, exposure to thermal coal sector and carbon emissions reduction) and social characteristics

(increased board gender diversity, consideration of UNGC fundamental principles and reduced controversial weapons exposure).

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The Manager undertakes an annual assessment of the Investment Manager's rationale for classifying as Article 8 in line with SFDR. The rationale is presented to the Manager's Responsible Investment Forum, which is open to all members of the investment team and the operational due diligence team, for validation. The rationale is assessed and challenged at the Responsible Investment Forum as needed. Any request for adjustment will be discussed between the Manager and the Investment Manager.

The Manager also performs a periodic ESG due diligence assessment of the appointed Investment Manager's proprietary methodology for its allocation of the Sub-Fund. The assessment includes completion of the Manager's proprietary ESG questionnaire at the initial selection process by the appointed Investment Managers which covers:

- ESG policy and governance;
- ESG integration in investments;
- Engagement and stewardship; and
- ESG risk and reporting.

The responses are assessed against proprietary scoring criteria and a combined ESG score is calculated which is further reviewed and challenged by senior members of the investment team. Any investment manager with a score below the minimum ESG score threshold is excluded from the selection process. The same process is repeated at regular intervals thereafter to verify that each appointed Investment Manager continues to promote environmental and/or social characteristics.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How have the indicators for adverse impacts on sustainability factors been taken into account?

Not applicable.

How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes

No

The Fund has not been able to go to the granular level of evaluating adverse impacts on sustainability factors due to the current difficulty in obtaining reliable data.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

What investment strategy does this financial product follow?

The investment objective of the Sub-Fund is to seek medium-term capital growth.

The Sub-Fund is actively managed. In order to achieve its investment objective, the Sub-Fund invests in interest-rate or convertible bond products (i.e. fixed income securities which can, at the option of the purchaser be converted into equity or equity-related securities), equities and UCITS in the light of market trends. The Manager will allocate between asset classes by applying a value-based opportunistic approach to seek an optimal risk / reward profile.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The Sub-Fund is subject to the overall management of the Manager who in turn appoints an Investment Manager.

The environmental and social characteristics the Sub-Fund seeks to promote are met by the implementation of the proprietary methodology of the Investment Manager. It considers these characteristics in the investment process (including investment research and analysis, ESG ratings and scores, exclusion policies (on controversial weapons, thermal coal sector and fundamental principles based on the United Nations Global Compact “UNGC”)) and through the implementation of an active engagement policy, ensuring that ESG risks and opportunities are identified, assessed, and incorporated in its investment decisions and monitoring.

Please see response to final question in this annex for links to further information.

The Manager undertakes an annual assessment of the Investment Manager’s rationale for classifying as Article 8 in line with SFDR. The rationale is presented to the Manager’s Responsible Investment Forum, which is open to all members of the investment team and the operational due diligence team, for validation. The rationale is assessed and challenged at the Responsible Investment Forum as

needed. Any request for adjustment will be discussed between the Manager and the Investment Manager.

The Manager also performs a periodic ESG due diligence assessment of the appointed Investment Manager's proprietary methodology for its allocation of the Sub-Fund. The assessment includes completion of the Manager's proprietary ESG questionnaire at the initial selection process by the appointed Investment Managers which covers:

- ESG policy and governance;
- ESG integration in investments;
- Engagement and stewardship; and
- ESG risk and reporting.

The responses are assessed against proprietary scoring criteria and a combined ESG score is calculated which is further reviewed and challenged by senior members of the investment team. Any investment manager with a score below the minimum ESG score threshold is excluded from the selection process. The same process is repeated at regular intervals thereafter to verify that each appointed Investment Manager continues to promote environmental and/or social characteristics.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

No committed minimum rate.

● ***What is the policy to assess good governance practices of the investee companies?***

The Investment Manager applies a two-level process to determine if a company does not, or no longer, adopts good governance practices. This involves:

1. Normative screening (where issuers, both sovereign and private, involved in international sanctions or in violation of the UN Global Compact, are excluded from the Investment Manager's initial investment universe).
2. Assessment of good governance practices such as sound management structures, employee relations, remuneration of staff and tax compliance (where the Investment Manager assesses and monitors the governance practices of the companies in which it invests on an ongoing basis).

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

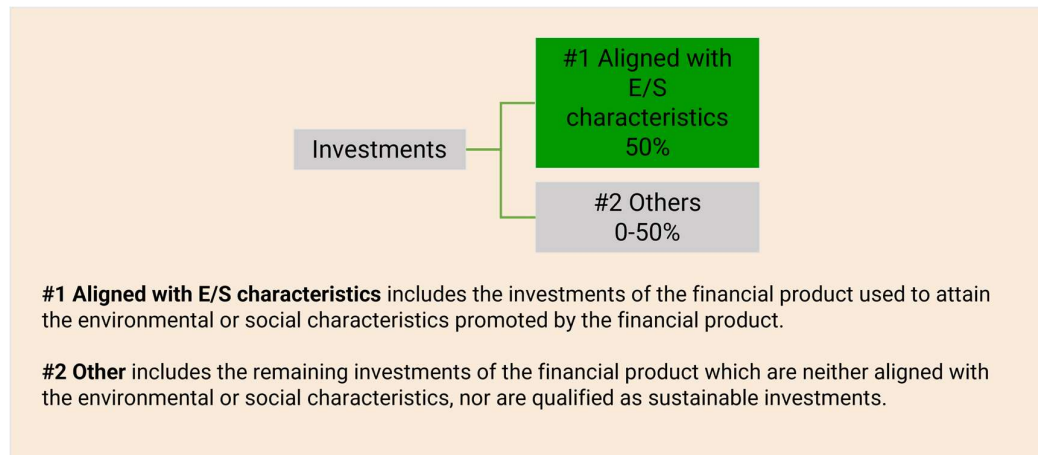

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What is the asset allocation planned for this financial product?

The Sub-Fund invests in interest-rate or convertible bond products (i.e. fixed income securities which can, at the option of the purchaser be converted into equity or equity-related securities), equities and UCITS. The Sub-Fund plans to allocate a minimum of 50% to investments aligned with E/S characteristics.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The derivatives are not used to attain the environmental or social characteristics promoted by the Sub-Fund.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What is the minimum share of investments in transitional and enabling activities?

0%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

0%.

What is the minimum share of socially sustainable investments?

0%.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Other investments include non E/S characteristics investments and cash. Nevertheless, these investments all respect the Investment Manager's common exclusion framework, thus ensuring a minimum of ESG principles.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

Not applicable.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

Not applicable.

- *How does the designated index differ from a relevant broad market index?*

Not applicable.

- *Where can the methodology used for the calculation of the designated index be found?*

Not applicable.

Where can I find more product specific information online?

More product-specific information can be found on the website: <https://ie.architas.com/modal/sustainable-finance-disclosures-review-sfdr-policy/>

Further details on the characteristics promoted by AXA Selection Flexible and the Investment Manager's ESG related policies (including ESG risks and opportunities) are available at <https://am.fr.rothschildandco.com/en/responsible-investing/documentation/>
